OLD WORLD CRAFTSMANSHIP MEETS STATE-OF-THE-ART

J.L. Anthony

HIGH-TECH | HIGH-TOUCH

high-style

phone apps, **we are most excited by the developments in drapery hardware.**

30 years ago, J.L. Anthony was a pioneer in adapting our custom hardware to the early motorized systems, and that leadership continues today as we bring our clients integrated luxury design solutions for residential and commercial installations. J.L. Anthony offers motors, switches, software and hardware interfaces from all the best sources, including **Somfy***, **Lutron**, **BTX**, **Büsché**, and **G-Rail**.

No matter how challenging the space, JLA's specialty-coated designer traversing hardware allows draperies to effortlessly glide through curves, arches, bays and lengthy spans. **Add to those high-efficiency tracks our stunning poles and finials dressed in our standard and custom finishes and you have interior design interpreted as a moving art form.**

Our customer service consultants will work with your contractors, electricians, audio-video companies, and drapery workrooms to assure that the perfect system is matched to your clients' needs.

control at your fingertips

Getting in touch with all the available controls, sensors and apps is simply a matter of submitting a request to your JLA rep or Dealer. We can help you navigate to the latest technology and coordinate your system for any size installation.

Today's smart homes are seeing automation and connectivity advances at breathtaking rates. And as lights, thermostats, audio and video, and safety systems now respond to wall switches, remote controls or tablet or smart

spec it online

Not only can our Staff advise you on designs, combinations and all the necessary specifications, you can also register for our proprietary JLADesignerStudio.com where the Trade goes to get specs, download pricing and guides and submit estimate requests.

*Somfy systems are offered in six colors.

high design in poles, finials & finishes

With over 50 finishes and 36 finial choices, J.L. Anthony can meet most any design requirement. Looks from ornate to minimalist are easily achieved with the broad selection of styles.

Although the J.L. Anthony finishes are anything but standard, they are just the beginning. Our artisans can create completely custom finishes to match even the most unique interior design.

Motorization for J.L. Anthony is available in 3" and 2-1/4" poles.

Go to www.jlanthony.com for more information on the wide variety of colors, styles and sizes.

handsome rope

sleekly square

customer-provided motorized tracks

For those who want to supply their own motorized tracks, J.L. Anthony offers a COM program.

By having the motor supplier drop-ship the system to our factory, we will meticulously fit the track to our poles making sure all settings and hardware are ready for easy installation.

motors & tracks

The JLA Staff is well-versed in all automation communication protocols including IR, RF, RTS, RS232, Z-Wave, QED and QS. We can work with every motorization provider.

JLA can also coordinate traversing tracks with any motor and modern or traditional pole designs for both household electrical current or low-voltage applications.
